EDUCATION

Washington University in St. Louis, St. Louis, MO Class of 2027
McKelvey School of Engineering | Majors: Computer Science and Finance | GPA: 3.64

Pace Academy, Atlanta, GA Graduated: May 2023
National Honors Society | Orkin Scholar | GPA: 97.44

PROFESSIONAL EXPERIENCE

The Home Depot, Atlanta, GA Summer 2025
Software Engineer Intern

- Over the course of the summer, a fellow intern and I built an AI- and ML-powered Slack bot to streamline the alert triage process for our team. The bot automatically parsed incoming alerts, performed database lookups, and leveraged historical data to identify common false positives, reducing unnecessary manual investigations and improving operational efficiency, estimated to save the company roughly \$100,000 a year.

Gridline.co, Atlanta, GA Summer 2024
Software Engineer Intern

- Collaborated with fellow interns to design and build an application that automates data accrual and analysis of quarterly statements, formerly carried out by the software team.

Perennial Properties, Inc., Atlanta, GA Summer 2021, 2022, 2023
Research Assistant

- Multi-Family development site selection analysis utilizing private and public data sources. Referencing both historic values and current trends, evaluated multiple City of Atlanta MSA sites for future development.

ACTIVITIES

Tikkun Olam Makers (TOM), St. Louis, MO Fall 2024 - Present
Student engineering club focused on developing assistive technology solutions for children with disabilities.

- Supported the inaugural WashU TOM Makeathon by collaborating with peers to design and assemble wheelchairs donated to local families in need.

Hack WashU, St. Louis, MO October 2023
Hackathon where teams built financial software products, sponsored by Mastercard.

- Developed finance tracking software using Mastercard's API and ChatGPT to analyze customer spending and recommend personalized savings strategies.

Creating Connected Communities (CCC), Atlanta, GA 2018 – 2022
CCC provides life-enhancing programs for children experiencing hardship by empowering teens to become engaged leaders and volunteers across a diverse community.

- Board Member. Attended events and organizational meetings. Committee Leader managing team of volunteers and educating new members about CCC activities and the community we served.
- Social Media Chairman. Managed CCC's social media webpages. Media spokesman and liaison to local newspapers and magazines.
