

Noah Patel

Entry-Level Data Engineer

Profile

Entry-level data engineer with a background in software development, analytics projects, and database design. Skilled at building clean data workflows, validating outputs, and explaining technical findings to nontechnical stakeholders.

Employment History

Data Engineering Intern at Pacific Retail Analytics

June 2024 - August 2024

- Built Python ETL scripts to standardize weekly sales files from multiple store locations.
- Created SQL validation checks that flagged missing records and inconsistent date formats.
- Documented pipeline steps so analysts could rerun reports independently.

Software Project Assistant at SJSU Research Lab

September 2023 - May 2024

- Helped maintain a dashboard for tracking experiment results and data quality issues.
- Used Git branches and pull requests to coordinate changes with two student developers.

Education

B.S. Software Engineering, San Jose State University

Graduation: May 2025 | GPA: 3.72
